

DUO-SAFETY LADDER CORPORATION

"FRESNO" Aluminum Attic Extension Ladder

"Fresno" Series 701 Aluminum Attic Extension Ladders have become very popular in many sections of the country. Specifically designed for indoor use where space is limited, they are particularly ideal for entering attics through ceiling trap doors and similar close-quarter situations.

The "Fresno" Attic Extension Ladder features strong, light weight channel construction and is only 13" wide, making carrying easier on narrow stairways where longer, bulkier ladders cannot be used.

Series 701 Attic Extension Ladders are available in the stock sizes shown below and in special sizes on request.

Series 701

**2 3/4" Channel Rail
750 lb Duty Rated**

SPECIFICATIONS

FRESNO SERIES 701 Aluminum
